

Focus Erasmus Mundus (EM) What's in it for Brazilian students and researchers?

About Erasmus + (2014-2020)

Erasmus+ is the European Union's programme for education, training, youth and sport from 2014 to 2020. It aims to boost skills and employability, as well as modernizing education, training, and youth work.

The seven year programme will have a budget of **EUR 14.7 billion**; a 40% increase compared to current spending levels, reflecting the EU's commitment to investing in these areas.

About Erasmus Mundus (2007-2013)

The Erasmus Mundus Programme ended in 2013. Nevertheless, some actions are still offering scholarships for the next academic years. A selection of Erasmus Mundus opportunities for Brazilian students and researchers can be found below.

1. Erasmus Mundus Joint Master Degrees and Joint Doctorates

[Erasmus Mundus Joint Master degrees \(EMJMD\)](#) and [Joint Doctorates \(JD\)](#) are offered by international consortia of higher education institutions. New Erasmus Mundus Joint Master Degrees will be added annually under Erasmus+. Masters students and academics apply directly to the selected joint programmes.

=> Brazilian nationals can enter the Erasmus Mundus Joint Programme and follow an integrated Masters Course or Doctoral programme in two or more universities.

- A **Joint Master Degrees (JMD)** corresponds to a high-level integrated international study programme of 60, 90 or 120 European Credit Transfer and Accumulation System (ECTS, corresponding to one or two years of studies).

WHO? Students at **master's level, including Brazilian, can apply for these degrees** which take place in at least two of the programme countries represented in the consortium. Academics may also apply to take part as guest lecturers or academics.

121 different consortia are proposing JMDs. Between approximately 13 and 20 student scholarship holders and 4 invited scholars/guest, lecturers can take part in each programme annually. In addition to the student scholarship holders, self-funded students can enrol.

=> All students from **Brazil** are eligible to apply for scholarships for 116 [Erasmus Mundus Joint Masters Degrees](#). They can also be enrolled as self-funded students.

For more information about Erasmus+:

<http://ec.europa.eu/programmes/erasmus-plus/>

From 2014 onwards, new master consortia that will provide scholarship opportunities are selected within the new [Erasmus+ programme](#) (2014-2020) for international higher education cooperation and mobility.

From 2014 onwards, new Doctoral Programmes and additional doctoral fellowships will be available under the [Marie Skłodowska-Curie Actions](#), which form part of the [EU's Horizon 2020](#) programme for research and innovation.

- Joint Doctorates (JDs) are doctoral-level training and research programmes and offer fellowships covering up to three years of doctoral activities. Eighteen consortia are proposing JDs in various fields. Doctoral candidates or scholars should contact the consortium offering the Joint Doctoral Courses for [more information on courses and application procedures](#).

=> All students from Brazil are eligible to apply for scholarships to 18 [Erasmus Mundus Joint Doctorates](#) currently open.

2. Erasmus Mundus University partnerships

Calls for scholarships of different durations for undergraduates, masters, PhD students as well as for post-docs and staff funding mobility between Europe and Brazil are frequently open for application by EU-Brazil projects selected under the following ERASMUS Mundus-supported projects. These opportunities will be available until 2017.
